

Top Tips for starting post 16 Study

Make sure you enrol - check your emails

Know how you are going to get there - find out in advance which route you are going to take and the costs involved. It may be a good idea to practice the route before the start of term

Don't be afraid to ask - each college or school will have people to help you with any concerns or questions

Everyone feels the same - it is a new start for everyone, it is ok and usual to feel a little bit nervous

Check your timetable - get familiar with the college/school so you know where your lessons are.

Brush Up On Your Study Skills - post 16 requires a lot of independent study and it has been a while since GCSEs.

It is a new start - if you had summer tasks do them first impressions are important

Take the time to make new friends - but don't forget your friends from school.

Invest in a notepad - (lined, A4 is the best) and a couple of pens.

Take care of yourself - Make time for the things that make you smile.
